NVDA: Non-Visual Desktop Access

NVDA:-Non Visual Desktop Access

NVDA (Non Visual Desktop Access) is free "screen reader" software. Which is enables blind and vision impairs people to use computers. It reads the text on the screen in a computerized voice. You can control what is read to you by moving the cursor to the relevant area of text with a mouse or the arrows on your keyboard. NVDA can also convert the text into Braille if the computer user owns a device called a "Braille display". NVDA provides the key to education and employment for many blind people. NVDA works with Microsoft Windows.
